

MAXENCE CERFONTAINE

Cloud Architecture Engineer | Paris | +33695844554 | maxence.cerfontaine@outlook.fr

www.linkedin.com/in/maxence-cerfontaine

PROFILE

EFREI Paris Engineering graduate (Master's in Cloud Architecture). Early-career Cloud and DevOps engineer with hands-on experience primarily on AWS and additional exposure to Azure and GCP. Designs and implements cloud solutions while driving infrastructure cost optimization.

EXPERIENCE

Devoteam A Cloud

DevOps Engineer | Levallois-Perret, France

Apr 2026 – Present

- Contributed to AWS cloud projects: GenAI Platform, fully secured with isolated network on AWS, to provide custom and compliant LLM to clients via LiteLLM. Managed the CICD pipeline via Gitlab
- Migration of different EC2 applications on ECS, and deployment of cloud native applications on ECS.
- Upskilling on AWS Cloud mostly

Hardis Group

Cloud Engineer | Paris La Défense, France

Mar 2024 – Mar 2026

- Contributed to AWS cloud projects: reviewed technical solutions, designed architectures, and implemented delivery for partner accounts.
- Drove continuous transformation through actionable “mini-projects” to modernize and standardize infrastructures.
- Embedded FinOps practices to reduce infrastructure spend such as Start / Stop functions or FinOps regular audits
- Provided L2/L3 support and incident management for multiple client environments via the ticketing system.
- Up-skilled primarily on AWS, with additional exposure to GCP and Azure; practiced IaC with Terraform and a bit of CloudFormation.

Galleries Lafayette – time-and-materials consultant (on site) via Hardis Group

DevOps | Paris France

Mar 2025 – Oct 2025

- Migrated on-premises applications to GCP through lift-and-shift/replatforming projects, without application code changes.
 - Scope: e-commerce APIs and internal line-of-business tools for various Galleries Lafayette departments and flagship stores.
- Achieved containerization and Kubernetes (GKE) deployments, integrating with the existing CI/CD toolchain.
- Performed security audits of the GCP infrastructure.
- Released critical updates to Galleries' business applications into production.

Fitness Park – Fixed-price managed services via Hardis Group Service Center

Cloud Engineer | Paris, France

Mar 2024 – Mar 2026

- Participated in a Terraform refactor of the infrastructure to remediate drift and restore automated deployment CI.
- Delivered new site rollouts (Portugal, Italy) and continuous improvement initiatives using Terraform.
- Deployed a new application for Fitness Park ("Égérie") over a 1-month project:
 - Scoped and designed the solution (architecture diagram, cost estimation).
 - Built the application on a completely independent stack, isolated from the existing infrastructure.

Finaré – Fixed-price project via Hardis Group Service Center

Cloud Architect - SRE | Paris, France

May 2024 – Sep 2024

- Designed the full AWS architecture for a data platform project integrating AWS and Snowflake
- Deployed all resources using Infrastructure as Code with AWS CloudFormation
- Managed network configuration, IAM users, and monitoring setup following AWS best practices

EDUCATION

Master Cloud Architecture

EFREI Paris School of Engineering | Paris, France

2022 - 2024

Academic Semester Abroad (English courses)

Concordia University | Montréal, Canada

Jan 2022 – May 2022

Bachelor's Degree of Engineering Science – BioInformatics minor

EFREI Paris School of Engineering | Paris, France

2019-2022

SKILLS

- **Cloud Providers:** AWS (Advanced), GCP (Intermediate), Azure (Fundamentals)
- **Infrastructure as Code:** CloudFormation, Terraform
- **DevOps & Systems:** Python, Linux, PowerShell, Git, Kubernetes, Jenkins
- **Soft Skills:** Open-minded, curious, creative, team player, enthusiastic, attentive
- **Languages:** French (Native), English (Professional)

CERTIFICATIONS

- AWS Certified: Cloud Solution Architect – Professional
- AWS Certified: Cloud Solution Architect - Associate
- AWS Certified: AI Practitioner
- AWS Certified: Cloud Practitioner
- Google Associate Cloud Engineer
- Microsoft AZ-104
- Microsoft AZ-900
- Microsoft MS-900
- HashiCorp : Terraform Associate
- Projet Voltaire : 815/1000 (RWVVP43)
- TOEIC : 930/990
