MAXENCE CERFONTAINE

Cloud & DevOps Engineer | Paris | +33 6 95 84 45 54 | maxence.cerfontaine@outlook.fr
www.linkedin.com/in/maxence-cerfontaine | www.maxence-cerfontaine.cloud

PROFILE

Cloud & DevOps Engineer, specializing in AWS, with hands-on delivery experience on GCP and working knowledge of Azure. End-to-end involvement across technical scoping, Infrastructure as Code, CI/CD, containers, cloud security, production releases and FinOps.

EXPERIENCE

Devoteam A Cloud
DevOps Engineer | Levallois-Perret, France — Apr 2026 – Present

Context: Delivery of AWS projects involving architecture design, Infrastructure as Code, AI at scale, deployment automation and the modernization of existing applications.

Bureau Veritas – Client assignment through Devoteam · Time & Materials
Cloud Engineer | Paris, France — Jun 2026 – Present

- Contributed to the AWS architecture and deployment of a new feature within an existing application, including constraint analysis and technical decision-making.
- Refactored and improved the Terraform codebase to enhance infrastructure maintainability and scalability.
- Implemented and enhanced GitLab CI/CD pipelines across multiple repositories to automate deployments.
- Deployed containerized, cloud-native applications in a predominantly build-focused environment with additional run and support responsibilities.

Hardis Group
Cloud Engineer | Paris La Défense, France — Jan 2024 – Mar 2026

Context: Designed, industrialized and operated AWS, GCP and Azure infrastructure for multiple clients across project-based and managed-service engagements. Delivered both BUILD and RUN activities, including Terraform and CloudFormation automation, FinOps optimization.

Fitness Park – Fixed-price managed services via Hardis Group Service Center
Cloud Engineer | Paris, France — Jan 2024 – Mar 2026

- Audited and refactored the Terraform codebase into a modular structure, remediated infrastructure drift, imported existing resources into the Terraform state and restored the CI/CD pipeline.
- Deployed infrastructure for Spain, Portugal and Italy on ECS Fargate, using Application Load Balancers and Auto Scaling to provide availability and scalability.
- Strengthened the AWS security posture through WAF v2, geo-blocking, rate limiting, granular IAM policies and organization-wide MFA enforcement.
- Scoped, costed and delivered the Égérie production environment on an isolated stack within a dedicated VPC in four weeks.
- Implemented FinOps initiatives that reduced the overall cloud bill by 30%, with savings of up to 50% across development environments.

Galeries Lafayette – Client assignment through Hardis - time-and-materials
DevOps | Paris France Mar 2025 – Oct 2025

- Took ownership, within a six-person BUILD team, of migrating critical applications from on-premises infrastructure to GCP using lift-and-shift and replatforming approaches.
- Containerized and deployed applications to GKE, integrating them with a CI/CD toolchain based on Terraform, Jenkins, Bitbucket, ArgoCD and Atlantis.
- Implemented blue/green deployments to maintain service continuity throughout the migrations.
- Conducted an IAM security audit, proposed remediation measures and released critical e-commerce applications into production.
- Migrated five critical applications in eight months with no service disruption during cutovers.

Finaré – Fixed-price project via Hardis Group Service Center
Cloud Architect - SRE| Paris, France May 2024 – Sep 2024

- Designed the end-to-end AWS architecture for a data platform integrating AWS and Snowflake.
- Deployed all cloud resources through Infrastructure as Code using AWS CloudFormation.
- Configured networking, IAM and monitoring in line with AWS best practices.
- Delivered a reproducible AWS–Snowflake platform including networking, security and observability.

EDUCATION

Master Cloud Architecture
EFREI Paris School of Engineering | Paris, France 2022 - 2024

Academic Semester Abroad (English-taught curriculum)
Concordia University | Montréal, Canada Jan 2022 – May 2022

Bachelor's Degree of Engineering Science – BioInformatics minor
EFREI Paris School of Engineering | Paris, France 2019-2022

SKILLS

- **Cloud Providers**: AWS (Advanced), GCP (Intermediate), Azure (Working knowledge)
- **Infrastructure as Code**: CloudFormation, Terraform
- **Containers & CI/CD :** Docker, Kubernetes, ECS, GKE, GitLab CI, Jenkins
- **Systems & programming** : Python, Linux, PowerShell, Git,
- **Practices:** FinOps, SRE, cloud security, cloud migration, IAM auditing
- **Languages:** French (Native), English (C1 Professional Proficiency, TOEIC 930/990)

CERTIFICATIONS

- AWS Certified Solution Architect – Professional
- AWS Certified Solution Architect - Associate
- AWS Certified AI Practitionner
- AWS Certified Cloud Practitioner
- AWS Partner : Forward Deployed Engineer (FDE) - Validated
- Google Cloud - Associate Cloud Engineer
- HashiCorp : Terraform Associate
- Microsoft AZ-104
- Microsoft AZ-900
- Microsoft MS-900
